INSPECTION STAFF ~~SECRET~~
STATEMENT OF BUDGET JUSTIFICATION FOR FISCAL YEAR 1956

General Introduction:

The Inspection Staff was formerly the Inspection Division. Upon the recommendation of the Inspector General, the name, but not the functions, was officially changed on 29 July 1954.

Major Accomplishments and Significant Developments during FY 1954:

Achieved the following: initiated security inspections and submitted comprehensive reports on 15 Agency or Agency-controlled facilities; completed special studies resolving security problems affecting 9 Agency installations; with regard to security, monitored the [redacted] CIA classified contracts, Agency shipment of highly sensitive material within the United States, Security Officer training program, CTR lectures bearing on security; investigated all security breaches referred to this Staff involving overseas installations; furnished support, security guidance to and served as the coordinating point for all foreign and domestic Security Officers; conducted special inquiries into numerous domestic security problems and submitted recommendations for the overall improvement of security practices.

G. Objectives for FY 1955 and Status of Current Program:

The objectives of Inspection Staff are: to provide a security inspection service for all CIA activities to insure proper security practices throughout the Agency; to continue assistance in the selection, training, guidance and coordination of Security Officers assigned to the Operational Missions; to establish and maintain a schedule of periodic security inspections of foreign [redacted] CIA operations; continue the study of non-25X1A CIA training facilities in order to certify their security acceptability; coordinate and investigate, where appropriate, all security violations or compromises occurring at overseas installations.

Current Status: A program for the systematic inspection of Agency activities has been prepared. In addition to the scheduled inspections and surveys in the Washington area, inspection trips have been scheduled as follows: twelve to [redacted] and one each to the European and Asian theaters.

D. Program Outlook for FY 1956:

Because of the continuing demands from all CIA components for secure operations, inspections must be made on a recurrent basis. Accordingly, it is anticipated that the activities of the Inspection Staff will, in general, follow the same general trend as set forth under Objectives for FY 1955. Increased operations and continued Agency growth will, of course, result in additional demands for security inspections and surveys to be made by this Staff.
